

## Do you know Garrett, our Conversation Assistant?

Hello, I'm Garrett. I am the new language assistant at Colegios Rafael Morales and Ruiz de Luna. I am from **Sheridan, Wyoming**, in the United States. Last spring, I started my studies in film and digital media. Last summer, I taught English to students from seven to eighteen years of age in Hungary, Romania, and Poland, and it was there that I found my love for teaching. I decided to spend this year teaching instead of returning to my studies at the University of New Mexico. I am considering studying in Spain and living in here for years to come!

I love Talavera de la Reina. I have encountered many friendly and welcoming people here. I love Spanish culture. I hope to share a bit of my American culture with your student(s) as well. I plan to bring a new approach to your child's English language learning. I am here to make things fun, immersive, and interactive. I intend to help your child use their motivations to make progress in developing their English language skills.
